

# Homework Lab

*Students, imagine a place where you could get help when you need it most. Perhaps a major project is due, or an important exam is only a few days away and you need help right now! How can you get the help you need?*

*Parents, perhaps you don't have that necessary time needed for homework help. How about a place that will help your child with homework while you take a brother/sister to practice or finish important errands?*

The Scholar Shop's Homework Lab provides the tools and the resources that allow students to receive help as needed after school. Our Homework Lab:

- helps students grades K-8 with their homework assignments
- allows a student to bring in homework to complete independently or with assistance from on site staff
- provide a space that's clean and well lit so children can complete their assignments without distractions from television and other siblings

The Scholar Shop's Homework Lab is one of the many services offered to help your child be successful academically. Please feel free to inquire about our other Scholar Selections:

**Pre K-12 computer based programs** that are in compliance with state/national standards. The student's progress is constantly monitored and parents receive detailed, timely reports of each student's progress.

**Homeschool Courses** are offered and completed in 16 week blocks for high school credit: Currently offering Latin, Algebra I & 9<sup>th</sup> Grade English Literature

**Parent Seminars** are offered monthly and provide engaging activities to support learning for the entire family.

**Specialty Work Shops** for the student: Study Skills, Organizational Skills, Public Speaking and Writing a Research Paper.

**SAT Prep** is an individualized and unique prep plan that addresses weaknesses and builds upon academic strengths through computer, classroom and written preparation.
